EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Baxley on June 19, 2002.

The application has been amended as follows:

A The title has been changed to the following: CCD scanner capable of scanning at an arbitrary angle with elastic swinging locking bar attached to chassis.

A The specification:

At page3, line 20- delete #20.

A The following changes to the drawings have been approved by the examiner and agreed upon by applicant: prior art label is added to figure 9. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: Regarding claim 1, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which includes an elastic locking bar swingably mounted on the chassis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Chiang (US 6,266,164) discloses a scanning device having two parallel wheel sets for maintaining scanning direction; and

Shia et al (US 6,285,483) discloses an optical scanner.
